**DATE: April 30, 2020**

**RE: Faculty Survey for the Joint MCCC -Management on Student Evaluation Tool Committee**

---

As part of the current MCCC day contract a joint union-management committee was formed to make recommendations on the replacement of the existing University of Washington Student Course Evaluation survey. To that end, the MCCC Joint Committee team members have created a survey to collect input on a new student evaluation tool. **Please note this survey is NOT asking about the course evaluation method for the current spring semester, but for future semesters when in person classes will be meeting.** All data collected will be handled in a confidential manner.

The survey is brief and will take about 5 minutes to complete. The link to access the survey is <https://forms.gle/PBBSTp3katkUcKJg6>

The survey will remain open until May 8, 2020. If you have any questions on the survey, please contact your MCCC Chapter representatives.

**This survey is NOT related to the COVID-19 response at the colleges. Any comments or questions about evaluations during this crisis should be directed to your institution's administration.**

The Joint Committee reminds you that it crucial for each and every MCCC Day Unit Faculty member to participate in the survey and provide the requested data.

If you have any questions on the survey, please contact your MCCC Chapter representatives.
